STUDENT GRATEFUL TO SAINT JOSEPH'S

Dear Saint Joe Alumni and Alumnae,

I recently came upon a letter from a fellow alumnae of Saint Joe which I would like to share with you at this time.

I was just going to write a brief note to let **Contact** know I had changed my address, and also to announce with joy the occasion of my first profession in the Congregation of the Good Shepherd, February 8 of this year. Yet, a brief note does not seem sufficient. It seems, in a way, ungrateful.

My very vocation to religious life is rooted in the experiences I had at Saint Joseph's College. Had I not attended Saint Joe's, I would not likely be where I am today.

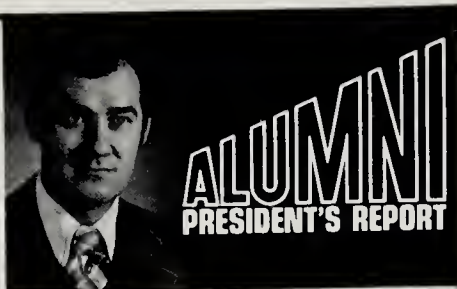

I went to public school all my life, and resisted strongly the idea of going to Saint Joe's. My father encouraged me to accept the half-tuition scholarship because he was greatly impressed by the admissions materials. I arrived at Saint Joseph's College in August of 1973, wanting nothing to do with the Catholic Church, even though I had been raised Catholic. I was misinformed as to what I should expect: I thought I'd be forced to attend Mass, and to take theology classes against my will.

I enrolled as a bio-chem major. By the following year, I changed to a philosophy major with a theology minor, not as a result of pressure, but as an outcome of personal conversion. A number of factors brought about that conversion, and sustained me in it:

1) The students I met were friendly and helpful. I could count on my R.A. to listen when I had worries and fears. The senior class was not condescending, but accepting of me. Those who had religious convictions did not force them on me. Within a year, I, who had all my life been a loner, formed several lasting friendships.

2) The heterogeneous atmosphere that allowed for the co-existence of many different types of people was new to me. In high school, there was only one "in" group. At Joe's, there were people from many different social, cultural, family backgrounds, and people with different values and goals. At Saint Joe's I came to feel I belonged in the world as the person I was truly meant to be - I didn't have to be force-fit to others' expectations.

3) The curriculum was very helpful. Though I had at first suspected the religious element - subtle as it was - I was later grateful that it was available to me. The Core Program introduced me to a wide variety of classic works which I now realize any well-rounded person ought to

at least sample. It was, in fact, the first for Core I, Viktor Frankl's **Man's Search for Meaning**, that initiated my search for true meaning in my life.

4) Not least of these factors was the presence of the Society of the Precious Blood. The availability of the fathers for confessions, counseling, and just plain old conversation enriched me and helped me to grow as a person. The daily dedication of the brothers of a life of work and prayer was a lesson to me. It was with the help of several members of the Society that I came to find my way. Even knowing then, and now, of the celebration of the Eucharist each day at Saint Joe's is a source of energy and new life for me.

I graduated in 1976 to begin a nine month candidacy with the Sisters of the Good Shepherd. After a two year novitiate, I was permitted to make my first promises in the Congregation. I would not be here if it were not for the three years I spent at Saint Joe's.

I found there a place of refuge; an opportunity for education, yes, but also, a place where I could get my head together. Now, as a sister of the Good Shepherd, I assist in providing a place of refuge for troubled teens through residential treatment, day school programs, family counseling, emergency shelter. It is like being an Olympic runner - I recieved a spark of fire, and here I am learning to pass that spark on to others. We continue to need much help in our work - volunteers, co-laborers, more candidates for the sisterhood. A world-wide congregation, we have houses in this province in Michigan, Ohio, Kentucky, and hope to return to Indiana (we were in Indianapolis some years back). I often hope fellow alumni might feel called to offer some assistance to troubled youth, also, a need that is becoming critical in our society.

I remember shortly before I graduated, I was depressed because I had failed in so many ways to say thank you to those who had touched my life at Saint Joe's. I was told that the way to say thank you was to take what I had gained along with me and share it with others. Yet, I still want to say the words which cannot be said too often:

"Thank you."

Shalom,

Sr. Glynis McManamon,
R.G.S.

New Student Union Board To Promote Halleck Center

A new organization named the Halleck Center Student Union Board has been chosen to promote student activities in Halleck Center. Rosie Vicek will be the Executive Director of this group and will be coordinating all the Union Board Directors. There are seven additional directors: Deb Socha, in charge of leadership workshops for Saint Joseph's College students; Dave Findley, in charge of all financial

The advisory board to the Halleck Center Union Board will be Dr. Duval Jones, Mr. John Groppe, and Mrs. Diane Jennings. The formation of the Board evolved from a sub-committee within the Student Life Committee composed of Mark Behnke, Dr. Hermes Kreilkamp, Dr. Duval Jones and Mrs. Jennings.

Helping students use the facilities of Halleck Center to its utmost and

Senior Board Directors - front row - Agnes Yeung, Sam Braus, Julie Reedy, Deb Socha, Caron Wadlington, Dave Findley, Rosie Vicek, Rich Huffine, Junior Vice Presidents - Back Row - Rita Nesius, Margaret Stack, Julie Rueve, Mary Hubeny, Beci Bateman, Mary Brown, Joan Murphy.

matters; Rich Huffine and Caron Wadlington, directors in charge of promoting more school spirit; Agnes Yeung and Julie Reedy, directors of special events, and Sam Braus, in charge of all the communications.

The Directors have the responsibility of being in charge of all the areas they represent, and coordinating the Junior Vice-presidents. The Junior Vice-presidents are in charge of carrying out all the committee work involved in these projects. Junior Vice-presidents selected are: Rita Nesius, Margaret Stack, Julie Rueve, Mary Huebner, Beci Bateman, Mary Brown Joan Murphy, Steve Myer, and Janel Townsend.

developing a better spirit by all of Saint Joseph's community are the goals of the Halleck Center Student Union Board.

Honors Awarded By Student Senate

Rev. Robert J. Maticzek, instructor of religion, and Dr. John P. Nichols, professor of philosophy, have both recieved the honor of professor-of-the-year here in annual balloting conducted by the Student Senate of Saint Joseph's College.

In a separate vote, Mrs. Diane Jennings, director of student activities, was named recipient of the Wooden Cask Award, given annually to an administrative staff member recognized for his or her contributions to an improved campus atmosphere.

Rev. Maticzek attended Saint Joseph's during 1969-73 and received a bachelor of science degree in psychology. He has studied at Catholic Theological Union in Chicago (1973-74 and 1977-78) and Angelo State University (San Angelo, TX) and was ordained at Saint Joseph's on Sept. 23, 1978.

Dr. Nichols serves as chairman of philosophy and coordinator of the college's Core general education curriculum. He joined Saint Joseph's faculty in 1968 as an associate professor. He earned PhL and PhD degrees from the universitiy of Louvain (Belgium) in 1965 and 1967 respectively, plus STB and STL degrees in theology from the University of Fribourg (Switzerland) in 1961 and 1963 respectively. He also received a bachelor's degree in philosophy from the University of Dayton in 1955.

Mrs. Jennings is a 1957 graduate of Purdue University with bachelor of science degrees in French and Spanish.

SJC Recipient Of Foundation Grant

Saint Joseph's College has received a three-year, \$156,400, grant from the National Science Foundation (Washington, D.C.) to develop the undergraduate science curriculum and programs at the college.

NSF made the grant under a program called "Comprehensive Assistance to Undergraduate Science Education," known as CAUSE.

The grant proposal was conceived and outlined by the entire science faculty at Saint Joseph's and negotiations with NSF in Washington were conducted by College President Father Charles Banet and Dr. John Nichols, the school's Core general education curriculum coordinator, who authored the proposal.

Project director for the three years of development will be Dr. Andrew Mehall, professor of biology, who will be assisted by Michael Davis, associate professor of geology, in the Core curriculum science and environmental science parts of the project.

Regulations for the CAUSE program stipulate that at least one-third of each funded project be covered by non-federal funds, so the complete three-year project actually covers a total of \$236,000.

"Saint Joseph's will have to invest slightly less than \$80,000 over the three years of the project to

fulfill its part of the bargain, but the alumni, friends and supporters of the college have always responded most favorably to such welcome challenges in the past," Father Banet says.

Dr. Nichols adds that "the awarding of this grant also can be seen as recognition of the quality of science instruction at Saint Joseph's. The CAUSE program is a very competitive one, with only 59 awards out of 760 applicants in 1976 and 69 out of 483 in 1977. The already-fine programs in science at the college will be taken quite a bit futher in their development with the influx of these funds the next three years."

Various activities are planned under the grant, including remodeling of the environmental science, organic chemistry and analytic chemistry laboratories and the purchase of up-to-date-equipment for biology, chemistry and environmental science.

"Among the more sophisticated new instruments to be added are a fraction collector and a nuclear magnetic resonator which are used, respectively, to separate and to identify organic compounds," Dr. Nichols explains. "These instruments will be put to very frequent and most instructive use by students in biology-chemistry, medical technology and environmental science.

"The earth science department also will acquire a complete mineral collection and seismographs, and the environmental science program will be equipped with the water and air sampling instruments needed for field work in these courses."

One of the most attractive aspects of the college proposal insofar as NSF is concerned is the fact that it calls for improvements in the science portion of Saint Joseph's Core curriculum, by way of both curriculum development and new equipment for experiments and demonstrations.

"The reason why this was so attractive to the NSF is that all students at Saint Joseph's take this innovative Core science program, thus bringing the impact of the grant to the entire enrollment of the college," Dr. Nichols adds, "The CAUSE program represents an excellent use of federal funds for the private colleges."

HOMEcoming '79
Saturday, September 29

Remember to circle the date now.

August issue of "Contact."

class notes

Rev. Bertrand J. Shenk is the Catholic Chaplain at the Ohio Soldiers and Sailors home at Sandusky, OH.

Donald J. Cooney has been elected president of the State Bank of Woodstock at Woodstock, Illinois. A member of the bank's staff since 1951 and its executive vice president since 1971, he becomes the fifth man to hold that office since the bank was founded in 1889. Cooney's father, Herbert T. Cooney, '02, and his daughter, Debra '77, are also graduates of Saint Joseph's.

Edward J. Malone, Jr. has opened a sporting goods store named "The Athletic Department" in South Holland, IL.

Donald L. Dwiell has been named general manager of Filmco International, a division of RJR Archer, Inc. He will be directing as well as continuing as an RJR Archer vice president, a position which he has held since 1977.

Edwin T. Hebda is now living in Sandy, Utah. He heads a division which is part of the Great Northern Nekoosa Corporation.

Stanley J. Nawrocki recently joined the Bank of New Orleans as Senior Vice President and non-funds Resources Administrator.

George L. Beemsterboer has developed and patented an artificial kidney. He is now the project director for maytansine (a natural anticancer drug found in a woody African shrub) isolation.

Joseph L. Boton is currently Director of Community Relations for the Sisters of Mercy Health Corporation, Our Lady of Mercy Hospital Division, Dyer, Indiana. Prior to this post he was Community Relations Manager of Senior Health Medicine for the Evangelical Hospital Association, Oak Brook, IL.

ROSPENDA

Robert E. Rospenda has been appointed to the senior staff of geologists for Dames & Moore engineering and environmental consultants, Chicago Office. He specializes in engineering, geology and project management. Currently he is project manager of site investigations for the Wolf Creek Nuclear Generating Station in Burlington, Kansas and is part of a Dames & Moore team preparing an environmental impact study for Exxon's proposed development of a major base metal deposit in Crandon, Wisconsin. Rospenda, his wife, Nancy, and their children, Kathleen, 11, John, 8, and Mark, 1, live in Elmhurst, IL.

Major Mary F. Felts has graduated from the professional personnel management course at Air University, Maxwell AFB, Alabama. The course provides senior personnel managers the opportunity to increase their knowledge in managerial and organizational concepts related to human resources and behavior, communications analysis, job enrichment and labor relations. She has returned to Elmendorf AFB, Alaska, for duty with a unit of the Alaskan Air Command.

BRUNSWICK

Lonnie L. Brunswick has resigned as Basketball Coach at Monroe County Community College, Monroe, Michigan after compiling a five-year record of 80-45. He will continue at the College in the new position of Community Relations Officer.

Major Thomas N. Gallagher has received his second award of the Meritorious Service Medal at Hickam AFB, Hawaii. He was cited for outstanding duty performance as chief of data automation in the comptroller division of the 3rd Tactical Fighter Wing at Clark AB, Philippines. He now serves at Hickam as a computer systems staff officer with the 6002nd Computer Services Squadron, a part of the Pacific Air Forces.

James W. Nagle has been placed in charge of billing and financial affairs for R. R. Donnelley & Sons, Inc., printers, in Lancaster, PA. He is currently completing his work on a degree at Franklin & Marshall College in Lancaster.

H. Michael Bowman, M.D. is presently doing a Fellowship in Emergency Medicine and Trauma at the University of California Medical Center in San Francisco, CA.

Brother Benjamin S. Basile, C.P.P.S. was recently appointed as Academic Dean (Principal) of Brunnerdale High School Seminary in Canton, Ohio. Brother Basile is the first Brother to become Principal of Brunnerdale.

George A. Lager is currently a Visiting Professor at VPI in the Department of Geological Sciences. His research is concerned with the application of X-ray crystallography to geological problems.

Marzetta Frazier Jackson is a case-worker for the Namely and Community Service of Delaware County, 100 W. Front Street, Medio, PA. She provides counseling to financially eligible families who are in need of guidance, employment, housing and who have problem children. She recently received the 1978 Outstanding Young Women of America Award in recognition of outstanding ability, accomplishments and service to the community.

Allen J. Pepping has been promoted

to Branch Manager of the Chicago Government, Education, and Medical Large Accounts Branch for Burroughs Corporation.

Michael Williams is currently working for MAPCO Inc., (Tulsa, Ok.) Production Division as a development geologist. He is married to the former Jan Brockert ('73).

Frank Santori, Jr. is a dispatcher for Willet Trucking.

Mariellen (Marcel) (Fortman) Dorman is a Lieutenant in the U.S. Marines. She is currently on duty in Japan and will be back in the States in August, assigned to Washington, D.C. She is currently teaching part-time with the University of Hawaii, stationed at Camp Butler Marine Corps Base, Okinawa. She is also a professional model, having had her professional training and experience in California.

James R. Saluke was ordained a priest for the Society of the Precious Blood on May 19, 1979, by Bishop Pilarczyk of Cincinnati. In the fall he will begin teaching mathematics at Brunnerdale High School Seminary near Canton, Ohio.

Susan A. Matuszak is a Quality Analyst in the Group Claims Operations of Connecticut General Life Insurance Co. She was transferred in June, 1978 to the home office facility in Hartford, CT. after spending two years as an Administrative Assistant in the Chicago Group Sales Office. She is responsible for claim auditing, examination and on-site quality evaluations in claim offices throughout the U.S.

Thomas G. Fogarty has been promoted to Assistant Cashier in the Trust Department of the First Union Bank & Trust Company of Winamac, IN. He was transferred to the Trust Department last September and is furthering his education by taking

specialized courses through the American Institute of Banking.

Debra J. Wolke has been named youth minister of Blessed Sacrament Church in West Lafayette, Indiana. It marks the first time in the history of the Diocese of Lafayette that a woman has been named youth minister of a Roman Catholic parish. She will work with the CYO program, teach elementary catechism classes and conduct youth retreats for members of the church.

ISLI Leadership Workshop Held For Saint Joe Students

Rev. Thomas E. Chambers, C.S.C., former Dean of Student Affairs at Notre Dame University and presently Vice-President for Academic Affairs at Ursuline College, Cleveland, Ohio, was on campus Saturday, March 24, to conduct a leadership workshop for students at Saint Joseph's College. Father Chambers is the founder and present director of the International Student Leadership Institute, Inc. ISLI was founded at the University of Notre Dame in 1966. Before that time Father Chambers had a group of Notre Dame student leaders working with high school student leaders from the mid-western part of the United States since 1963. He called the small Notre Dame organization the Robert F. Kennedy Student Leadership Organization. Since the dream of Father Chambers was to have his philosophy of leadership reach beyond the University of Notre Dame to other colleges, universities, and secondary schools in and outside of the United States, he called the organization the International Student Leadership Institute, and it became incorporated as a non-profit corporation in 1975. Today Father Chambers dream is a reality with ISLI extending to the eastern shores of St. John's, Newfoundland, to the western coast of Vancouver, British Columbia, with ISLI input as far south as Florida. The philosophy of ISLI is that all who wish to be leaders can be if they become

Involved, have the willingness to Serve, remain Loyal to the five objectives of ISLI and possess untiring and unending Initiative.

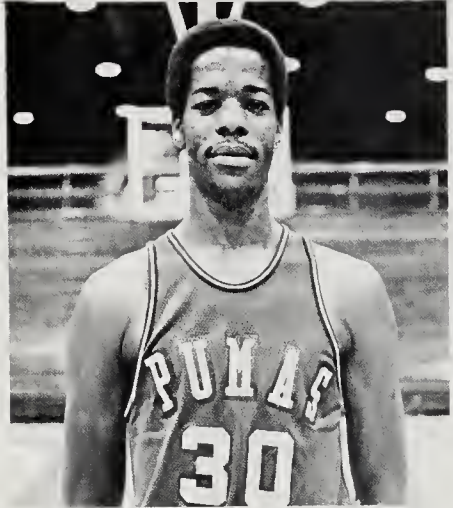

Twenty students from Saint Joseph's College took part in a Leadership Institute workshop: JoAnn Wappes, Betsy Fink, Barb Fink, Deb Socha, Karen Roelofs, Jim Finnerty, Stephen Brouillette, Marty Maher, Beci Bateman, Troy Flowers, Colleen McGuinn, Augie Ghilarducci, James Rogers, Steve Meyer, Rex Duley, Brian Cassidy, Valerie Bauer, Becky Wolff, Art Crews, Mary Dlugosz. These students were certified as ISLI facilitators. The methodology used by ISLI facilitators is a method referred to as laboratory-learning, i.e., people teach people. Trained ISLI facilitators utilize the method through what ISLI calls the "Task-orientation." The five essential objectives of ISLI which are located in the philosophy are: 1) support, 2) awareness, 3) self-confidence, 4) positive-thinking, 5) values. These objectives are taught with and by tasks in group process, communication, maturation, change, and leadership. ISLI began in 1963 and has over 4,000 alumni.

The workshop presented at Saint Joseph's College began with an introductory meeting Friday evening and extended into an all-day session Saturday, culminating with a dinner at Mrs. Jennings' home and Mass celebrated by Father Tom.

SJC Cagers Finish In NCAA Final Eight

Little All-American forward Dave Downey and playmaker supreme Kevin Sims were named co-most valuable players for Saint Joseph's 1978-79 basketball Pumas here recently during the team's annual awards dinner.

Downey, a senior from Paris, KY, averaged 17.6 points and 12.0 points per game this season and won Little All-American honors from the National Association of Basketball Coaches. Sims, a senior from West Lafayette, IN, averaged

DOWNEY

14.6 points per game and set a new all-time Saint Joe record this past winter by recording 171 assists.

Other special awards included:

Max Trump 110 Percent Award to the five graduating seniors -- Downey, Jim Michels, Sims, Tony Smith and Dennis Thomas; Hank Kresler Leadership Award--Sims; Most Assists Award--Sims (171); Most Rebounds Award--Downey (338); Best Free Throw Percentage Award--Brown (.839); Best Field Goal Percentage Award--Downey (.526) and 1,000--Point Club Award--Downey (1187 career points and Sims (1129 career points).

"We are very happy with the performance of our five seniors--Downey, Michels, Sims, Tony Smith and Thomas -- they were the backbone of our program all year long," noted Waggoner. "We also had great leadership from experienced players who contributed much on their own and were the key of any success we had this year."

"Also, being voted coach-of-the-year in this region was an honor earned by our players," Waggoner added. "All of this, plus the conference and regional championships, climaxed a great year."

Looking back on the entire season Waggoner notes that this team accomplished all of its major goals -- winning the Puma 100 Classic, winning the Great Lakes Valley Conference, and doing well in the NCAA tourney and he added that Sims' all-time assist record, Sims and Downey reaching the 1,000-

point career mark in the same game, Brown's free throw shooting, the choice of Downey as a third-team All-American and the selection of Sims and Downey as All-Americans in the Great Lakes Region as high-lights. This is a team that all Saint Joe basketball fans can be proud of.

Recent SJC basketball history would bear this out, since Collegeville now boasts three Great Lakes Regional champions within the past decade. First came the 1969-70 club that coach Jim Holstein and leading players Ted Hillary and Bill Gladioux orchestrated to a 21-6 record. Next was the 1973-74 outfit paced by the leadership, scoring and rebounding talents of Jim Thordsen and Kyle Wiggs.

And now the 1978-79 squad, with its tough rebounding, nifty shooting touch and uncanny knack for winning

games against enormous odds, as Waggoner said, will not soon be forgotten, and the memories will be pleasant ones.

"NCAA ACTION"

sports update

Smith, SJC Trainer, To Pan-Am Games

Brad Smith, head trainer at Saint Joseph's College, is one of a group of U.S. trainers who have been selected to work with the United States Olympic team May 30 to June 13 during training sessions for both the summer and winter teams.

"I applied for this job early last winter, and I feel it is quite an honor to get the chance to assist in our Olympic program," Smith reports. "It is my understanding that trainers for the Pan-Am Games this summer and for the 1980 summer and winter Olympics will be drawn from

among those who serve at Colorado Springs."

Colorado Springs is the official training site for the U.S. 1980 Olympic teams, and Smith estimates that 20 to 30 trainers will work at the site this year.

The Pan-Am Games will be held during the first two weeks of July at San Juan, Puerto Rico, the 1980 Winter Olympics will be held at Lake Placid, NY, and the 1980 Summer Olympics are scheduled for Moscow.

Bettinger Named First Team Academic All-American Second Straight Year

Perfection in the classroom and quality performance on the gridiron have paid off again for junior Mike Bettinger of Saint Joseph's, who has been named to the 1979 Academic All-American Football Team for the second consecutive year.

A native of Merton, Wis., Bettinger has won two varsity monograms for the Pumas. During his sophomore season, he recorded 33 solo tackles, 35 assists and had one pass interception. He also returned 23 punts for a 6.5 average and eight kickoffs for a 16.5 average. In addition, he was the recipient of the Justin Oppenheim Award for Mental Attitude, the Frank McHale Award for Loyalty, and the Brian Piccolo Award for Dedication at the team's past football banquet.

Bettinger is the son of Mr. and Mrs. John Bettinger of 801 Stoneybrook, Dayton, Ohio, and is a graduate of Arrowhead High School (Hartland, WI.).

He was initially nominated for this award by Saint Joseph's Defensive Coordinator Gerald R. Lasko, and is presently being honored on the 27th annual academic All-American team which was selected by a vote of sports information directors at schools across the nation.

He is a member of the Fellowship of Christian Athletes, a group which he helped organize this past year on Saint Joseph's campus.

BETTINGER

Bettinger, a 5-9, 185-pound Defensive Back is an elementary education major, who is carrying a perfect 4.00 GPA, and is one of just two straight-A students to earn a spot on the College Division team.

Basketball Honors to Sims, Downey

League champion Saint Joseph's has placed forward Dave Downey and guard Kevin Sims on the Great Lakes Valley Conference All-Star team for 1978-79 in voting conducted among league coaches, athletic directors and sports information directors.

SIMS

Neil Brown and Dennis Thomas of Saint Joe also earned Honorable Mention spots.

Dave Downey, 6-8 senior forward on Saint Joseph's basketball Pumas, has been named on the third team in NCAA Division II All-American balloting by the National Association of Basketball Coaches.

Downey, who was the most valuable player in the Great Lakes Regional played at Dayton, OH on Mar. 2-3, finished the season with an average of 17.6 points and 12.0 rebounds per game.

Puma Women Conclude 17-5 Season

The Saint Joseph's women's basketball team closed out its most successful season on Saturday, March 3, after dropping a 61-47 decision to Butler, thus making the Pumas the runnerup team in the state small college tourney for 1979.

Looking back on a 17-5 season, SJC coach Sue Buntin noted "We're basically satisfied with what we accomplished this season. One of

our goals was to reach the final game of the state tourney, and unquestionably our play in this tournament was a peak for us."

She added that "our rebounding and scoring were the most satisfying elements of our play all season long, and everyone on this team contributed to its success. As for next year, we graduate nobody, so we can already say our goal will be to win the state title."

Father Charles Banet, SJC President, is shown presenting mementos to Bob Wasni, class of '54, and wife, and to Will Kellogg, Jr., class of '55, and wife, at "SJC Hall of Fame" induction ceremonies. Also shown are Dale Fallat, class of '66 (far left), SJC Alumni Association President, and Jerry Lasko, class of '70, (far right), SJC Executive Alumni Director.

TENTH ANNUAL CHICAGO PARENT'S CLUB DINNER - DANCE

Father Paul White, moderator of the Parent's Club and Nancy Reedy, a graduate of Saint Joseph '77 enjoy themselves at the Annual Parent's Dinner-Dance held at the Bismark Hotel in Chicago.

Emil Babiarz, trustee and parent of alumnae Julie Babiarz, sold 200 tickets for the five \$1,000 drawings.

James J. Righeimar '54 and wife were one of the winners of the five \$1,000 drawings. Their son Brian will be a sophomore at Saint Joseph's this fall.

Bill Feeley '55 and wife Shirley are active with the Chicago Parents' Club. He is also active with the Saint Joseph's College Alumni Board. Their daughter Dawn graduated from Saint Joseph's last year and is now attending law school.
